EXPERIENCE A COOLER ADVENTURE

Chilly Moose is a family-owned national leader of high performance outdoor coolers and insulated drinkware, designed by Canadians for life in the great Canadian outdoors.

Founders Kristi and Paul Greco spend their life together sharing a passion for adventure and exploration. They created Chilly Moose with a focused vision - combine innovation, style and performance into premium outdoor products Canadians would be proud to call their own.

PROTECT WHAT WE CHERISH

Our love of preserved Parks, Canadian wilderness and easy access to clean water fuels our desire to fiercely protect them all. Our efforts to combat the global “buy and toss” habit is a driving force behind Chilly Moose. Our products are designed to last as long as you do. Choosing to purchase reusable drinkware is one small but impactful act we can all take to help stop the cycle of single-use plastics.

Chilly Moose is a proud committed partner of Ontario Parks, Scouts Canada & Integrity Reforestation to help continue their efforts in protecting important Canadian eco-systems and educating future generations.

STAND APART FROM THE CROWD

We understand how difficult it is to source premium-quality gifts for your clients and employees. And in the fog of cheap disposable options, it's easy to get lost and feel disappointed by sub-par products that don't properly reflect the calibre and reputation of your brand and business.

Customized Chilly Moose coolers and drinkware will help your business stand out from the crowd. Superior performance outdoor gear in an array of iconic Canadian colours make Chilly Moose a unique and appreciated addition to corporate gifting and brand-building programs.

Are you ready to take corporate gifting to the next level? Share your project with our knowledgeable team today and start feeling good knowing you're giving the best and elevating your brand.
